OBJECTIVE

- To secure a software developer internship where I can apply my programming skills and web designing knowledge to contribute to the success of the organization and gain valuable industry experience.

SKILLS

- Programming Languages: C, C++, Java, C#
- Web Designing: HTML, CSS, JavaScript
- Frameworks: Basics of Bootstrap, Tailwind CSS, React JS
- DataBases: SQL/MySQL Databases

PROJECTS

- Complete Portfolio Website: Designed and developed a personal portfolio website showcasing my skills and projects.
- Responsive E-commerce Website: Created a fully e-commerce website with a responsive design.

DESCRIPTION

Musallam Khaled Basolan

- I am currently pursuing my 4th year in Computer Science Engineering (BE-CSE). I have completed my 10th from Saint Xavier's High School and 12th from Sir Sayyed College. I aspire to become a professional software developer and hope that your company will help me develop my skills and progress in my career.

- I am a passionate and dedicated Computer Science Engineering student, with strong foundational knowledge in programming languages such as C, C++, Java, and C#. I have hands-on experience in web development technologies including HTML, CSS, JavaScript, and have also worked with tools like Tally with GST. I've built several personal projects like a complete library management system in C#, responsive websites, and interactive forms, which showcase my practical skills and creativity. I am eager to learn, adapt quickly, and always ready to take on new challenges. My goal is to contribute effectively to a dynamic team while growing professionally in the software development field.
